g) Use of Estimate:

The preparation of financial statements in conformity with Generally Accepted Accounting Principles require estimates and assumptions to be made that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amounts of revenue and expenses during the reported year. Differences between actual results and estimates are recognized in the periods in which the results are known/materialize.

h) Provisions & Contingent Liability:

Provisions are recognized when the Company has a present obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably

estimated. A contingent liability is disclosed when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources.

i) Earnings Per Share:

The earnings considered in ascertaining the Company's EPS comprise of the Net Profit after Tax, after reducing dividend on Cumulative Preference Shares for the period (irrespective of whether declared, paid or not), as per Accounting Standard 20 on "Earnings Per Share", issued by the Institute of Chartered Accountants of India. The number of shares used in computing basic EPS is the weighted average number of shares outstanding during the period. The diluted EPS is calculated on the same basis as basic EPS, after adjusting for the effects of potential dilutive equity shares unless the effect of the potential dilutive equity shares is anti-dilutive.

j) Impairment of Assets:

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized in accordance with Accounting Standard-28 "Impairment of Assets", for the amount by which the asset's carrying amount exceeds its recoverable amount as on the carrying date. The recoverable amount is higher of the asset's fair value less costs to sell vis-a-vis value in use. For the purpose of impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows.

k) Revenue Recognition and Receivables:

Dividend from investments in shares are not recognized in the Statement of Profit & Loss until the right to receive payment is established. The right to receive dividend should be construed as right to receive by the Balance sheet date and not till the date accounts are finalized. Interest accrues, in most circumstances, on the time basis determined by the amount outstanding and the rate applicable. Purchase & Sale of Shares is recognized in the books on the basis of contract note cum bill received from the broker at value after adjusting the brokerage charged by the broker.
